Message from the Chairman

The function of education is to teach one to think intensively and to think critically. Intelligence plus character that is the goal of true education.

Martin Luther King, Jr.

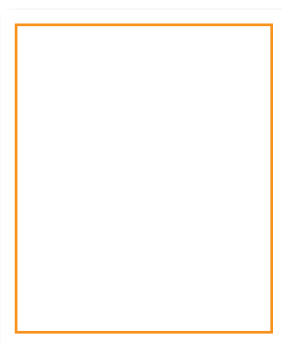

Dear Parents,

At Wockhardt, we believe in developing leaders for tomorrow who demonstrate skills, knowledge and values of a global citizen. In our endeavour to create an environment for young minds to evolve we laid the foundation of Wockhardt Global School in Aurangabad. Our mission is to develop students with active and creative minds, a sense of understanding, compassion for others and the courage to act on their beliefs. We emphasise on the complete development of every child – morally, intellectually, socially, emotionally and physically.

Our value system that encourages leading through innovation, encouraging students to take responsibility, celebrate diversity and develop a positive attitude makes them a truly global citizen. Our curriculum introduces young learners to an inquiry based framework and dual language approach for learning.

One of the aspects that is to be followed is learning through play which encourages young learners to explore and investigate, demonstrate skills and dispositions that will follow them as they move through Kindergarten. Active learning also provides opportunities for action, and consequently for think through solutions to problems.

As aptly said by the 'Father of the Nation' Mahatma Gandhi, "The future depends on what we do in the present" let's begin with the perfect backdrop for learning and growing at Wockhardt Global School.

Sincerely,  
Zahabiya Khorakiwala  
Director Wockhardt Education
